Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

1. Claims 1-4 and 9-25 are pending.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-4 and 9-26 stand rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicant arguments received 7-23-01 have been fully considered but are not found persuasive.

Applicant argues the rejection is a veiled attempt at a 35 USC 101 rejection. It isn't, so applicant's remarks will not be considered. The rejection was based on the position that one of skill in the art could not practice Applicant's invention without an undue burden because in view of Applicant's disclosure and the state of the art it was deemed unpredictable to practice Applicant's claimed invention.

As far as Applicant's arguments drawn to the use of the aortic stenosis model, if Applicant can demonstrate by declaration by one of skill in the art or by recognition in the art that the disclosed aortic stenosis model would reasonably correlate to all forms of congestive heart failure (i.e. those recited in claim 10), the Examiner will reconsider the rejection. Furthermore, Applicant is notified the elected group, Group I, is being examined as it relates to a polypeptide encoded by the Neuregulin gene-1, i.e. recombinant human GGF2, which Applicant's aortic stenosis model working examples are limited to.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the

advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
